The logo for PGG Wrightson Seeds features a stylized graphic of two overlapping wavy lines, one dark blue and one light green, positioned above the company name. The name is written in a bold, italicized sans-serif font, with 'PGG Wrightson' in dark blue and 'Seeds' in light green.

PGG Wrightson Seeds

A smaller version of the PGG Wrightson Seeds logo, featuring the same stylized wavy lines and italicized text as the larger logo above.

PGG Wrightson Seeds

About PGG Wrightson Seeds

- The leading proprietary forage seed company in the world
- Specializes in breeding, production and marketing of grasses, legumes and brassicas
- International partners located in key markets including Australia, United States, Europe and South America.

About PGG Wrightson Seeds

- The marketing agent for Grasslands Flecha tall fescue in the USA and Australia
- Invests in the development and commercialization of Mediterranean and Continental-type tall fescue products
- Invests in new pasture products through a joint venture branded as Grasslands Innovation.

- Revolutionary perennial cool-season, summer dormant grass
- Persists in dryland Texas and Oklahoma regions with annual rainfall greater than 20”
- A more profitable alternative to wheat, oats and other annual forages.

Our USA Product Development Approach

- Relationships with AgResearch USA, Noble Foundation, University of Georgia, University of Kentucky
- Commercial relationships with major US seed distributors
- Committed to delivering technology and innovation to US livestock producers.
